

Projects are created from Travel Demand Model and needs identified by citizens

Data is analyzed and projects are prioritized according to the goals and objectives of the Comprehensive Transportation Plan

Notices of upcoming meetings to present findings and solicit comments are sent via email and advertised in local papers.

County staff meets with focus groups, interested parties, and the public.

County staff briefs commissioners & obtains approval. By the Board for consideration and eventual adoption.

County allocates resources for the design, right-of-way acquisition, and construction of projects.

Projects are then designed and constructed. (please refer to the Plan Development Process
